DETAILED ACTION

Response to Amendment

1. Claims 1-41 are cancelled. Applicant's arguments with respect to claims 42-57 filed 8/16/2004 have been fully considered and they are persuasive.

Examiner's Statement of Reasons for Allowance

1. Claims 42-57 are allowable over the prior of records.
2. The following is an Examiner's statement of reasons for the indication of allowable subject matter: Regarding claims 42 and 52, the allowability, at least in part, resides in an apparatus and method of controlling a hydraulic actuator in an injection molding machine having a system control processor performing overall process control of the injection molding machine, fails to teach in part a memory associated with the micro controller and configured to store a control program, said command signals, and said and feedback signals, said memory also being configured to store operating characteristics of at least one of said hydraulic control valve and said hydraulic actuator.
3. Claims 43-51 and 53-57 are allowed for the same reasons above.
